We positively guarantee all plants sold by us to be exactly as described in this catalog, and free from disease and insect pests. We also guarantee them true-to-name, and will replace, free of charge, any that may prove otherwise through possible error. While we guarantee all plants to reach you in good growing condition, we do not guarantee crop, and cannot be held responsible if later the plants fail. The life of a plant after it reaches the planter in good condition depends entirely upon conditions over which we have no control. A tree, shrub or other plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds, and is subject to attacks of disease and insects. Success depends largely upon cultivation, soil and weather conditions, so it is therefore agreed that in no case shall the FISCHER NURSERIES be liable for more than the original purchase price.
